EXECUTIVE SUMMARY

Motivated engineering graduate with a transitional foundation in embedded systems, and proficient in frontend development (HTML, CSS), working knowledge of Python, and strong problem-solving skills in Java including data structures, algorithms, graphs, and dynamic programming. Seeking to contribute analytical thinking and practical engineering skills to technology-driven organizations.

EDUCATIONAL QUALIFICATIONS

- **Sri Krishna College of Technology (SKCT)** — Coimbatore, Tamil Nadu
  B.E. Electronics and Communication Engineering ***(CGPA: 8.18)*** — *2023 – 2027*
- **Sri Sundareswara Vidyasala Matric Higher Secondary School** — Melur, Madurai
  Higher Secondary Certificate (XII) ***(94.5%)*** — *2022 – 2023*

TECHNICAL SKILLS

- **Programming:** Java, Python, C, JavaScript.
- **Web Technologies:** HTML, CSS, React.
- **Databases:** MySQL, MongoDB Compass.
- **Tools & Platforms:** Microsoft 365 (Teams, SharePoint, Power Apps), Excel VBA[Macro], Arduino IDE, VS code, GitHub.

INTERNSHIPS

- **Schneider Electric India Private Limited** — Coimbatore, Tamil Nadu
  Industrial Intern — *Jan 2025 – Feb 2025*
  - Designed and automated a Safety Passport and Equipment Handling Tracker using Excel VBA for structured trainee and equipment data management.
  - Integrated global equipment categorization and multi-location tracking using Microsoft 365 tools including Excel and SharePoint.
- **BYD India Private Limited** — Chennai, Tamil Nadu
  Industrial Intern — *May 2025*
  - Observed electric vehicle and battery assembly operations including motor, axle, and battery integration, Studied LFP battery architecture, IP67/IP68 safety standards, Spot welding automation.
  - Noticed production workflows covering Incoming QC, In-Process QC, Final QC, rework procedures, and finished goods handling.
- **Tech7 Automation Systems India Private Limited** — Coimbatore, Tamil Nadu
  Industrial Intern — *Apr 2026 – May 2026*
  - Studied industrial electrical panel manufacturing, automation systems, HT/LT panels, protection systems, and industrial wiring standards used in power distribution and control systems.
  - Analyzed the working and applications of PCC, MCC, APFC, VCB, PLC and Soft Starter panels including relay, contactor, MCCB, ACB, CT, and busbar arrangements.
- **Welltech Control Systems** — Coimbatore, Tamil Nadu
  Industrial Intern — *May 2026 – Jun 2026*
  - Worked in industrial control panel design and manufacturing, including DOL, Star-Delta, and ATS panels used for motor control, automation, and power distribution applications.
  - Examined protection and control systems involving relays, contactors, MCCB/MCB, CTs, thermistors, timer relays, PCR-10E controllers, panel wiring standards, testing procedures, and industrial safety practices.

PROJECTS

- **AgriDetect - Ultrasonic Weed Detector System – Hardware**

  Tools Used: *Ultrasonic Sensor, ESP32 Microcontroller, Embedded C, ThingShow (Cloud), Buzzer*

  – Designed and implemented a weed detection system using ultrasonic sensors and microcontroller-based processing.

  – Applied distance-based detection logic with real-time alerts to reduce manual inspection and maintenance effort.

- **FloodGuard – Offline GPS-Based LoRa Emergency Communication System – Hardware**

  Tools Used: *ESP32 Microcontroller, SX1278 LoRa Module, Neo-6M GPS Module, Embedded C, I2C LCD, TinyGPS++ Library*

  – Designed an offline emergency communication system for transmitting SOS alerts and real-time GPS location during flood disasters without cellular or internet connectivity.

  – Implemented long-range LoRa communication, GPS-based victim tracking, last known GPS storage, Integrated LCD status display, and Google Maps location generation using ESP32 and SX1278 modules.

- **Personal Budget Manager – Software**

  Tools Used: *React (JavaScript), HTML, CSS, localStorage*

  – Developed a frontend web application to manage budgets, categorized expenses, and real-time balances.

  – Implemented authentication, localStorage persistence, responsive UI design, and dynamic financial calculations.

CERTIFICATES

- **Cisco Networking Academy**
  - Introduction to Cybersecurity
  - Python Essentials 1 & 2
- **NPTEL**
  - Effective Learning for Professional Development
  - Developing Soft Skills and Personality
- **Infosys Springboard**
  - Electronics Course
  - Java Foundation Certificate

ACHIEVEMENTS

- Awarded **Reliance Foundation Scholarship (2,00,000)** for academic excellence covering four years of undergraduate study.
- Secured **Second Prize** in National Science Day Quiz Competition, Thiagarajar College of Engineering (2024), along with a cash prize of **Rs.2000**.
