CAREER OBJECTIVE

Motivated engineering graduate with a strong foundation in embedded systems, quality assurance systems, and industrial automation, with hands-on exposure to electric vehicle and battery production. Proficient in frontend development (HTML, CSS), working knowledge of Python, and strong problem-solving skills in Java including data structures, algorithms, graphs, and dynamic programming. Seeking to contribute analytical thinking and practical engineering skills to technology-driven organizations.

EDUCATIONAL QUALIFICATIONS

- Sri Krishna College of Technology (SKCT)**
B.E. Electronics and Communication Engineering (CGPA: 8.1) Coimbatore, Tamil Nadu
2023 – 2027
- Sri Sundareswara Vidya Sala Matric Higher Secondary School**
Higher Secondary Certificate (XII) (94.5%) Melur, Madurai
2022 – 2023
- Sri Sundareswara Vidya Sala Matric Higher Secondary School**
Secondary School Leaving Certificate (X) (100%) Melur, Madurai
2020 – 2021

TECHNICAL SKILLS

- Programming:** Java, Python, C, JavaScript.
- Web Technologies:** HTML, CSS, React.
- Core Concepts:** Data Structures, Algorithms, Graphs, Dynamic Programming.
- Tools:** Microsoft 365 (Excel, Word, PowerPoint, Teams, SharePoint, Power Automate), Excel VBA, MySQL

INTERNSHIPS

- Schneider Electric India Private Limited**
Industrial Intern Coimbatore, Tamil Nadu
Jan 2025 – Feb 2025
 - Designed and automated a Safety Passport and Equipment Handling Tracker using Excel VBA for structured trainee and equipment data management.
 - Implemented global equipment categorization using Microsoft 365 tools and gained exposure to LV switchgear, panel board manufacturing, and safety workflows.
- BYD India Private Limited**
Industrial Intern Chennai, Tamil Nadu
May 2025
 - Observed electric vehicle and battery assembly operations including motor, axle, and battery integration.
 - Analyzed production workflows covering quality control stages, LFP battery architecture, IP67/IP68 standards, Spot welding automation.
- BSNL Madurai**
In-Plant Training Madurai, Tamil Nadu
Dec 2024
 - Undergone in-plant training covering TCSC, BSS, RF, NIB, and NGN network infrastructure.
 - Gained exposure to telecom switching systems, broadband services, radio frequency communication, and next-generation networks.

PROJECTS

- Ultrasonic Weed Detector System – Hardware**
Tools Used: Ultrasonic Sensor, ESP32 Microcontroller, Embedded C, ThingShow (Cloud), Buzzer
 - Designed and implemented a weed detection system using ultrasonic sensors and microcontroller-based processing.
 - Applied distance-based detection logic with real-time alerts to reduce manual inspection and maintenance effort.

- **Personal Budget Manager – Software**

Tools Used: React (JavaScript), HTML, CSS, localStorage

- Developed a frontend web application to manage budgets, categorized expenses, and real-time balances.
- Implemented authentication, localStorage persistence, responsive UI design, and dynamic financial calculations.

CERTIFICATES

- **Cisco Networking Academy**

- Introduction to Cybersecurity
- Python Essentials 1

- **NPTEL**

- Education for Sustainable Development
- Developing Soft Skills and Personality

- **Infosys Springboard**

- Electronics Course
- Java Foundation Certificate

- **Coursera**

- Introduction to Docker
- AWS S3 Basics

ACHIEVEMENTS

- Awarded **Reliance Foundation Scholarship (2,00,000)** for academic excellence covering four years of undergraduate study.
- Secured **Second Prize** in National Science Day Quiz Competition, Thiagarajar College of Engineering (2024).

HOBBIES AND AREA OF INTERESTS

- Reading Books, Playing Cricket, Listening to music.
- Designing Webpages, Frontend Development.
